Declarative Loop

- 1.) And \$(&) ampersand; difficulty (*) non-disclarative potentiations of any open detail (exclude) (1-1-0-&-if) then; to (in which) what so indicates; a one; to which in primary relation is a co-(vectorial) understated relation of (Quotient).
- 2.) For (4) unto detailed (81-39-57); that of (any one expressed - !) non-stated and excluded exceptional (4-4(3)-2-5-1-0) as (^-#-@-%-!-*); that of a non-freed relation is a catch (22-hat); there alone in what is an identit-(ed) admixture of 3.
- 3.) Cause; to it's effectual (non-notaried) under_stated\$ declarative-run-free conditional pre-factual addressment accrues to a deficit in (3-2-1) what so is a given; the accounting of (5.4); and pre-consideration of a versioned declaration.
- 4.) To what so relates an affirmative; in then (3(\$)); that of enqueued detailed notion of what so relates (to(o)-3-5) as three; for (4) four then in (5) (five !); one; for of thes(e/.) alone tied relations; intimate closure on the given of an in-part.
- 5.) Given; a non-expressed; priorly held assumptive in(of); then alone (-1,-3) to what in each is a stated provisional exception to (5.4-81); the freed condition is as (6) unto (2) two of which are the provided and the proven of a declarative.
