

My Final Plea

To: Amanda Koci Max

From: Paris (s.)-Rose Miles-B.

Many Thanks,

I required friendship for a certain time set-aside, and of your grace, what would naturally befit my better wellness, of the things that would equate *you, with means to become of happiness and a voyage to-sense, and prosperity.

I did this, all, on behalf of the conviction that a people hold a faith, and one, with kindness in their-heart (in a sense, - Heaven) can be supported as their love, for what is the living nature of our understanding of one another, thus of life, on Earth.

I believed in much, but I must also tell you of what I will not do. I will not, in this vein, make my Son, if we are to have one, or, a Daughter, to-become alike a faith of a people, the commonality, and the guidepost of friendship, in this sense, but lead, and with an honest intention of the forthrightness of a sharp mind. 'God' in a sense, means 'the living father', and 'LORD' means very much the 'the people's faith'. Thus, my Son, or my Daughter, for in my wisdom, would be mislead were I to convince them they are special to the extremity of being isolated among people, in our close-knitted proxy.

This, is why I recommend that they are not-idle, and you, remain with the capacity of skepticism of what could become. It is not so much to make love 'hard', - but that it need be an alternation of cloud, sky, mountain, earth, and water, and birth, through the process of understanding as a Family.

Thus, the 'LORD' becomes a 'family' - when we understand one another, thus, it is that faith, nature, and family must be approached between us to find happiness, and 'kindness', must be the cornerstone. Thus, I would like to teach our Son or Daughter of kindness, faith, nature, and family, and be, your Husband. This much, is with a great deal of understanding of the path we come to know in life.

Sincerely,

Paris (s.)-Rose Miles-Brenden
