

Paris (Rose.S) Miles-Brenden

2024 - 5/29/2024

The general idea is to create a dispute theorem for mathematic(s) of which we may reconcile ideas, to the development of reconciliation of the world, and a system, - *in recognition this* observable universe is not all that-exists.*

In a predicate at what-is, as a foundation of knowledge and the intersection of sociological understanding (via taxonomy and medicine) & of mathematic(s).

Kiss[ing]-problem and computation in Pseudorandomness and Variability and Confidence and Mutual-dispute, - from-which there is potentially a *Statute* or deliverant* *notion* of extremes and extremity at naturalized process or History.

--

General *study of *gradualism & percolation.*

The 'coresidual taxonomy' illicit(s) a mutual-assurance, for in foreignable and locale of it's *net-identity-of-projectively-held-present-neutrality under applicable truth for in physical phenomena, in relation to* *Future identity of unimodularity of sequentialized **debate**, - a Science.

Law, and Study and Report...

A ring 05:06, a briefcase 32.29, and a safe: 55.91 (2x.0.1/5|8.13|26.15~.126/267.440).

Evidenced, a book* (free-license) - coming to-self *via* *English, ~ [Language] with USPS - *prior-two+one coin* - mixed hand/voice.

(5.8|13) *decided* in incremental (torus/sphere) conjecture *whence* of 27 crossings, in (14.[26].9) - of 2 factoring 9, in three dimension(s) of outward/outward/inward.

Separative co-dependently arisen *majority and absolutio*n to a datum, in willfully and recreative (legis. at *ledger* and poly.). + 5 months from one-year in calendar.
