

Paris Roses Miles-Brenden

## Scientific Studies and Plan/Goal[s].

February 26th, 2024

I have two - **& or** - four (goals):

- a.) Incompleteness.
- b.) Device.
- c.) Volunteering & Cooking & Resting.
- d.) Publication & Theory & Application & Studies.

this will \*include:

managing money.

managing health (of body and person, psychology, and education, and mind).

building, establishing, and willing a better purpose through relationships.

working with the government on ideas.

it \*may involve communications - **& or** - social networking.

remaining involved, on top of plans, and organizational skills.

07:41 pm

"A New Interpretation of Plank's Law"

- *On Courant Variables & Elliptic Functions.*

- I will need advance the device *yet ahead.*

- I will leave or enjoin Quantum Electrodynamics & Spontaneous Symmetry Breaking.

There remains incompleteness, entropy, information 'flux', and electronic(s) via measurement and observation.

The Box-Closes, with the Fist (outside):

- 1.) Plank-Nernst and Fokker Law.... {F|B}, and exclusion [included].
- 2.) That of *Sensor and Property Select Partitionable Fork - Hume.*

A new interpretation of *Quantum Mechanic(s) adjusted to General Relativity and the Equatement of Measure.*
