Identification.

(six in five) of the dispute-theorem to mutual A. M. M. O. P. A.

six in six, to unidentified - in five, of life-saved.

Thus, one besides self, therefore (+4x) are-real.

Salvagement.

(six in five in one to four, to two, excepting four.)

Thus, of interlenient dialog.

FCT - regional, a landing, and O., - life saved, at P. - for in A., pro-two, life and death, in (5+) guaranteed.

Togetherness.

life and life, unknown of one dying, but one-saved, detection in life elsewhere.

Thus, I know of O., and he know(s) of-me, or A. and A. and M. and M. - all four, no-five.

Thus, it is of question at death.... but of confidence.

Jurisprudence.

No question of death. An answer.

Thus, acquittal of the past.

Ariana now, of the present, is-living.
