I have a-promise of complete-recovery* in-innocence or-guilt.*

A witness is excursive (at a promise in dispartiture of relevency to yet-so) - the case-contributionary truth, but* *that it was prior, that Ava, had released to-me.* Then, - that *excursitively*, the debate is answerable in mutual relevance, for of a 'whole' and it's retention.

Thus, given Ava had been honest from a remaining (prioritized prior truth) - *the dispute is inherent to judgement on my behalf, in a peer.* This* may be determined by the destined [dispute] of a hierarchal lookup, and *schedule at court*, [similarly of the identifiable promise] - *in relief.*
